

Name: RUCKERT MARTIN

Born: Mai 28, 1957, Dornau, Unterfranken

Mailto: ruckertm@acm.org

Degrees

Degree	Date	Institution	Subject
Dr.rer.nat	June 22, 1985	LMU-München	Proof Theory
Diplom	Sept. 30, 1981	LMU-München	Mathematics (Minor: Physics)

Professional Development

Year	Rank	Institution	Responsibilities
1981–1983	Software Engineer	Letterphot KG, München	System Software Development
1984	Software Engineer	Block DV e.G., München	Software Design and Management
1985–1986	Software Engineer	Gavish, Givat Brenner, Israel	Software Tool Development
1986–1988	Systems Engineer	Nixdorf CAG, Paderborn	Research and Development in Knowledge Engineering Tools
1988–1989	Project Engineer	SIEMENS AG, München	Research and Development in Declarative Languages
1989–1991	Teacher	Günter Stöhr-Gymnasium, München	Teacher for Mathematics, Physics and Computer Science
1991–1992	Visiting Professor	SUNY New Paltz, New York	Research and Teaching in Computer Science
1992–1998	Professor	SUNY New Paltz, New York	Research and Teaching in Computer Science
1999–2001	Researcher	LMU München Inst. für Mathematik	Research and Teaching in Mathematics
since 2001	Professor	University of Applied Sciences München	Research and Teaching in Mathematics and Computer Science
2005–2010	Department Chairman	Department of Mathematics and Computer Science University of Applied Sciences München	Department Administration
2011	Visting Scholar	Stanford University	Research in Computer Science

Books

1. M. Ruckert, “WEB to cweb”, ISBN 978-1548582340, August 2017.
2. M. Ruckert, “The MMIX Supplement”, Addison-Wesley, February 2015.
3. M. Ruckert, “Understanding MP3”, Vieweg Verlag, July 2005.
4. H. Anlauff, A. Böttcher, M. Ruckert, “Das MMIX Buch”, Springer Verlag, October, 2002.

Reviews

1. M. Ruckert, “A. Weiermann: Sometimes slow growing is fast growing’’, The Bulletin of Symbolic Logic, Volume 6, p. 222, June 2000.

Journals & Conference Proceedings

1. M. Ruckert, “HINT: Reflowing TeX output”, TUGboat, Volume 39, No. 3, 2018.
2. M. Ruckert, “Converting T_EX from WEB to cweb”, TUGboat, Volume 38, No. 3, 2017.
3. M. Ruckert, “Computer Modern Roman fonts for ebooks”, TUGboat, Volume 37, No. 3, 2016.
4. M. Ruckert, A. Böttcher and M. Hauser, “A Generic Virtual Bus for Hardware Simulator Composition”, IEEE Design and Test of Computers, Vol. 26, 2009.
5. A. Böttcher, M. Ruckert and M. Utesch, “MMIX in Class — Learning a Lot About Hardware Through Software”, in Proceedings of Informatics Education Europe IV, 2009.
6. M. Ruckert, “Mathematik für Ingenieure”, Technik in Bayern, 1/2009.
7. M. Ruckert, “Teaching Compiler Construction and Language Design”, in Proceedings of the 38th ACM SIGCSE Technical Symposium on Computer Science Education, Covington, KY, März 2007.
8. M. Ruckert und A. Böttcher, “MMIX als einheitlicher Modellprozessor für weite Teile des Informatik-Studiums”, 2. GI-Fachtagung Hochschuldidaktik der Informatik, München, 2006.
9. M. Ruckert, “Continuous Grammars”, 26th ACM SIGPLAN-SIGACT POPL’99, San Antonio, TX, Januar 1999.
10. M. Ruckert, “Conservative Pretty Printing”, SIGPLAN Notices, Vol. 32, No. 2, February, 1997.
11. M. Ruckert “Extensible Subobjects in C++”, Journal of Object-Oriented Programming, July-August 1996, Vol. 9, No. 4.
12. M. Ruckert and R. Halpern, “Educational C”, in Proceedings of the 24th SIGCSE Technical Symposium on Computer Science Education, SIGCSE Bulletin, Vol. 25, No. 1, ACM Press, 1993.
13. W. Mellis and M. Ruckert, “Checking Consistency in Expert Systems”, in Proceedings of the Ninth International Workshop on Expert Systems and their Applications, Avignon, 1989.
14. K. Estenfeld and M. Ruckert, “Wissensverarbeitung mit PROLOG-XT”, in Proceedings of the KI88; W. Remmele (ed.), Munich, 1988.
15. M. Ruckert, B. Mescheder, and F. Mädler, “Prozesskontrolle mit Expertensystemen”, in Reports of the German Chapter of the ACM No. 31, Proceedings of the “WiMPEL’88” Conference, Munich, 1988.
16. M. Ruckert, “Berufsbild: Knowledge Engineer”, in: Computer Magazine 10/87, ed. Basten.

Awards

1. Preis des Wissenschaftsministers für gute Lehre an bayerischen Fachhochschulen, 2006
2. Bundessieger im Bundeswettbewerb Mathematik, 1976

Software projects

1. MMIX, A Modelprocessor for the new Millenium Homepage, <http://mmix.cs.hm.edu>
2. VMB, Virtual Motherboard, <http://vmb.sourceforge.net>
3. m3w, A mp3 Streamer for the World Wide Web, <http://m3w.sourceforge.net>

Presentations

1. “Programming as an Art”, Colloquium for Don Knuth’s 80th Birthday, Pitea, Sweden, 10.1.2018.
2. “Wie Funktioniert MP3”, Münchner Wissenschaftstage, LMU München, 23.10.2006.
3. “The MMIX Motherboard”, Faculty Poster at the 37th SIGCSE Technical Symposium on Computer Science Education, Houston, TX, 2006
4. “Programmieren in Scheme ab Jahrgangstufe 5”, Jahrestagung: Deutscher Verein zur Förderung des math. und naturwiss. Unterrichts e.V., 12.10.2000, München
5. “Wirklichkeit und Model — Halteproblem und Logik” Tag der offenen Tür, 7.7.2000, Institut für Informatik der LMU, München
6. “Warum ist Normalisierung durch Auswertung effizient”, Workshop: Deduktive Aspekte der Beweistheorie und Informatik, 6.4.2000, IAM Universität Bern

Technical Reports

1. M. Ruckert and J. Tully, “Integrating Directional Menus with Direct Manipulation for Fast Human-Computer Interaction”, Tech. Report 00-101, SUNY New Paltz, Nov. 2000.
2. M. Ruckert, “MINLOG Tutorial”, Mathematisches Institut der LMU, München, April, 1999.
3. M. Ruckert, “Generating efficient substring parsers for BRC grammars”, Tech. Report 98-105, SUNY New Paltz, Juli 1998.
4. M. Ruckert, “Computer Aided Teaching — An Experience Report”, SUNY New Paltz, Nov. 1997
5. M. Ruckert, “Educational C Version1.1 — User Manual and Report”, SUNY New Paltz, Nov. 1997
6. M. Ruckert and R. Enders, “Objects”, in PROLOG-XT User Manual, SIEMENS Corporate Research and Development, Munich, 1989
7. T. Kiefer, H. Freyler, M. Ruckert, and K. Hans “Vorstudie zum Projekt ‘Einsatz eines Expertensystems zur Abfallbeseitigung bei Saarbergwerke AG’ ”, Institut der Gesellschaft zur Förderung der Angewandten Informationsforschung IAI, Saarbrücken, 1987.
8. M. Ruckert and W. Mellis, “Sollen wir PROLOG programmieren”, NIXDORF COMPUTER AG, internal report, Paderborn, 1987.
